Sirkku Rosi (b. 1987, Tampere) graduated as a Master of Arts from Aalto university in 2015 and works mainly with aquarelles and performance art. Rosi has had several exhibitions in Finland and abroad.

She is interested in rituals and poetry rising from mundane life and it's absurdity. Rosi is pondering the connections between bodily and visual working with art. She is interested in limits of feminine and sees the lived body and flesh as a shared experience among all living in this porous world. Her works are a kind of diminutive carnival of flesh.
